

## How to expand your career opportunities

Are you at the entrance of your career path feeling a little disoriented? Or maybe you would like to try something different? Perhaps you would like to go abroad? Careers in Poland is a project targeted at students, graduates and professionals who would like to pursue a unique career in Poland.

The project *Careers in Poland* was started in response to the needs of international companies operating in Poland as well as to support the European labor market, which experiences some trouble connected with waves of economic crises. Due to the fact that European Union facilitates free flow of labor there are no obstacles for well educated, specialized professionals and employers offering enticing career opportunities to meet. Our role is to ease this process, even supply and demand.

Rapid pace of the development of business services sector in Poland is astonishing. Currently there are 128 000 people employed in BPO, ITO, SSC and R&D centers all over Poland. This number has grown more than 50% since 2012 and it is predicted to reach 170 000 employees in the end of 2015. Companies operating in this sector are often huge international enterprises opening divisions in Poland. Moreover, the centers usually cooperate with or receive orders from foreign companies. The effect of international character of employment in this sector is the necessity of creating diversified teams, assuring the widest possible spectrum of languages in the company and providing international, universal work standards. Hence foreigners coming to work in Poland and Polish citizens have equal opportunities.
