Danish Summer Language Courses under the Cultural Agreements

Under the Cultural Agreements Program, Denmark has long offered foreign students from selected countries the opportunity to attend a two to three week Danish summer language course in Denmark. Until recently, the program had been based on a series of bilateral cultural agreements that Denmark had entered into with selected countries.

We are pleased to inform you that from 2016, the Danish Summer Language Courses will be administered as an open scholarship pool without quotas for specific countries, open for applications from students from the Erasmus+-programme countries and selected other countries from outside the EU.

This means that as something new, B.A., M.A., and Ph.D. students from Croatia will be eligible to apply for a summer language course under the Cultural Agreements Program. Students may, for example, choose to apply in conjunction with a planned Erasmus+ stay in Denmark or in conjunction with their studies in Danish language, literature, and culture.

Students admitted to a summer language course under the Cultural Agreements Program receive free tuition, room and board during the course's duration.

You can read more about the Summer Language Courses under the Cultural Agreements on the following website:

www.ufm.dk/en/cultural-agreements

We look forward to welcoming your students to Denmark in the future.

Yours sincerely,

Nils Agerhus
Director
