

BIOBASED

Development support of blue biorefinery in the Adriatic Sea

DESCRIPTION

The BIOBASED project focuses on the sustainable use of underexploited marine resources to boost the blue economy in the Adriatic area, aligning with EU strategies. The project aims to bridge knowledge gaps in this sector by establishing an R&D scheme to strengthen Italy-Croatia's blue economy, through the transfer of the know-how from researches to producers and by involving SMEs in pilot sites to market bio-based products and services.

PROJECT DURATION
01.04.2024 - 30.09.2026

ERDF
€ 1.008.196,73

TOTAL BUDGET
€ 1.260.245,92
